**GUIDANCE SHEET**

For each intergenerational/intergroup dialogue, the topic of the session will be written clearly. Number of girl as well as boy participants should be mentioned for each session. The parents who are joining the intergenerational dialogue may or may not be the members of the Mothers’ Group or Fathers’ Group. Thus, at the start of the dialogue session, the SM should count the approximate number of group and non-group parents who are joining the intergenerational dialogue. There is also the space for the SM to write the challenges they faced, any other reflections they have or any comments coming from the participants that they want to share.
